

# XLVI Generatore vapore/acqua

XLVI GENERATORE VAPORE ACQUA è un innovativo sistema di generazione ed erogazione dell'acqua e del vapore. E' raccomandato per usi intensivi.

Formati disponibili:

Piccolo cod. 1300010 / Medio cod. 1300011 / Grande cod. 1300012

XLVI GENERATORE VAPORE ACQUA is an innovative steam generator recommended for intensive use, it ensures reliability in work with large volumes.

Available size:

Small code 1300010 / Medium code 1300011 / Large code 1300012

## TECHNICAL CHARACTERISTICS

### Small cod. / code 1300010

|                 |                               |
|-----------------|-------------------------------|
| Net weight      | 21 Kg                         |
| Power           | 2900 W                        |
| Voltage         | 220-240 V                     |
| Socket          | 3 poles / SINGLE Phase / 16 a |
| Boiler capacity | 5,5 l                         |

#### Size

|        |       |
|--------|-------|
| Depth  | 40 cm |
| Width  | 42 cm |
| Weight | 45 cm |

Each device is designed to support  
1 or more columns

Max number of column units supported :  
1 Colonna Vapore + 1 Colonna Acqua

### Medium cod. / code 1300011

|                 |                                                                                             |
|-----------------|---------------------------------------------------------------------------------------------|
| Net weight      | 30 Kg                                                                                       |
| Power           | 3500 / 4000 W                                                                               |
| Voltage         | 220-240 V                                                                                   |
| Socket          | 5 poles / 3-Phase + Neutral+grounding / 16 a<br>* single phase version available on request |
| Boiler capacity | 14 l                                                                                        |

#### Size

|        |       |
|--------|-------|
| Depth  | 40 cm |
| Width  | 62 cm |
| Height | 45 cm |

Each device is designed to support  
1 or more columns

Max number of column units supported :  
2 Colonna Vapore + 1 Colonna Acqua

### Large cod. / code 1300012

|                 |                                                                                            |
|-----------------|--------------------------------------------------------------------------------------------|
| Net weight      | 38 Kg                                                                                      |
| Power           | 4500 / 5000 W                                                                              |
| Voltage         | 220-240 V                                                                                  |
| Socket          | 5 poles / 3-Phase + Neutral+grounding / 16 a<br>*single phase version available on request |
| Boiler capacity | 23 l                                                                                       |

#### Size

|        |       |
|--------|-------|
| Depth  | 40 cm |
| Width  | 82 cm |
| Height | 54 cm |

Each device is designed to support  
1 or more columns

Max number of column units supported :  
2 Colonna Vapore + 1 Colonna Acqua
